Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections/Allowable Subject Matter

1. This application is in condition for allowance except for the following formal matters:

Claim 1, and claims 2-23 and 25-27 that depend therefrom, are objected to because of the following informalities: independent claim 1 as recited in the list of claims filed by Applicant on October 9, 2008 is unclear, apparently due to improper photocopying. Independent claim 1, particularly lines 6-12 on page 2 of said list of claims, is difficult to read and, more importantly, the chemical structure formula at the bottom of page 2 is missing the bonds that attach moieties "A" and "B" to said formula. Appropriate correction is required.

2. Independent claim 1, and claims 2-23 and 15-27 that depend therefrom, would be allowable upon the filing by Applicant of a revised list of claims correcting the objections to claim 1 that was presented above in the instant action.

3. The following is an Examiner's statement of indicating allowable subject matter: the prior art does not teach or suggest a process of recovering material from a subterranean formation that comprises injecting a fluid into said formation to drive materials from the formation to the production means, wherein said fluid either comprises a first and second polymeric materials in accordance with formulas (i) and (ii)

recited in independent claim 1, or, a reactive product of said first and second polymeric materials.

The closest prior art is U.S. Patent Number 6,660,802 to Eagland et al., hereinafter 'Eagland'. Eagland discloses a method of preparing a polymeric material having a formula in accordance with that recited in instant claim 1 that has said first and second polymeric materials. However, Eagland does not disclose or suggest injecting into a subterranean formation a fluid comprising its polymeric material, let alone injecting it for the purpose to drive materials from the formation to a production means.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. **Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).** See, MPEP §714.14 and §710.02(b)

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
